Subject: How awful

I do not believe that the people who have been involved in the Microsoft suits are ethical, or even decent citizens.

You have agreed, apparently, that Microsoft can set out its programs and its "services" to schools as a result of the various lawsuits.

Such a miscarriage of Justice.

Microsoft will get the CREDIT and the PUBLICITY and the fact that its software will be used by more people.

Such awful people we have in the courts.

Since the last Presidential Election, I have certainly changed my mind about the courts from top to bottom.

Donald W. Patzsch
